The Forty Day Visual Feast Project

Creating Information Visualizations to Inspire and Educate Both Scientists and Artists

http://www.cs.allegheny.edu/visualfeast/

Call for Submissions

The Forty Day Visual Feast Project (FDVFP) is a contest to create forty exciting visualizations that are designed to inspire and educate both scientists and artists. Upon its completion, the FDVFP will showcase the images, a description of the steps that you can take to construct them for yourself, a commentary on the strengths and weaknesses of each visualization, and a beautiful wall sized poster highlighting every design.

Enter your visualization in order to compete for one of many financial awards!
